

AD·Bio
plastics

Applications

Mould Injection - BioXe

Technology	Melt Flow index (MFI)	
	BioXe 1	BioXe 2
	4-6 g/10min (190°C)	20-85 g/10min (190°C)

Transformation Technology

Mould Injection

Possible replacement material

PS, rPS, PP, PE, rPP, rPE

Advantages/highlights

- Shape, finishing and technical performance similar to polyolefins
- Similar cycle times to PS and polyolefins
- Right performance in shrinkage and thickness variations

- Do you have any questions?
- Would you like personalised advice?
- Would you like to try a sample of the product?
- Would you like to place an order?
